

BIG-BAG FILLING STATION

FILL DUST-FREE AND SAFELY

For the customized installation, we configure our Big Bag filling stations individually based on the functional needs and spatial requirements of our customers. This allows for optimal combination of appropriate frames, weighing technology, suitable vibrators, loop suspensions, or filling spouts in size and shape. Additionally, the filling station can be combined with wheels for flexible deployment.

- ✓ EASY OPERATION
- ✓ FLEXIBLE DESIGN
- ✓ DUST-FREE
- ✓ CONTINUOUS HEIGHT ADJUSTMENT

BIG-BAG FILLING STATION
